THE TANGO OF POLARITY

Stay present with her in push and pull while you tango in polarity.

Feel her heart from yours as your bodies tussle lovingly.

Polarity is love in the sexual dance of tease and opposition.

Understanding this allows you to enjoy uninhibited sex while resting deeply as zero.

ATTRACTING YOUR RECIPROCAL

You will tend to attract your reciprocal in sexual polarity.

If you love silence, she will enjoy talking.

If you prefer peace, she will create drama.

If you are dedicated to freedom, she will want more love.

If your goals are one-pointed, her goals will be fluid.

If your decisions are clear, hers will be inexact.

If you like to achieve goals efficiently, she will prefer the circuitous route.

If you are a man of your word, she will change her story.

If your idea of fun is easy and smooth, she will gravitate toward argument and friction.

If you like to sit, she will enjoy moving.

If you find refuge in unborn awareness, she will be at home in the endless display of experiences.

If you want to be left alone, she will yearn for more intimacy.

As a man of zero, you learn to embrace what you attract without recoil or withdrawal.

Be the same open awareness with or without her.

REVERSED POLARITY

If your emotions are wild and unpredictable, she will be less passionate and spontaneous.

If your mind can't decide, her mind will.

If you are constantly engrossed in the changeable energy of nature, music, and psychedelics, she will rely on her own stable clarity.
